SUBJECT INDEX FOR VOLUME 34

abortion, professional attitudes, 1263–1269

ageing, in cultural context, 1303–1343

AIDS, and African women, 63–73
and women in developing countries, 249–262
demographic impact in developing countries, 271–280
and women's sexual behaviour, 447–457
minority women and sexual choice, 447–457
and sexual behaviour in sub-Saharan Africa, 475–483
and care giving, 571–580
risk perception and prevention, 591–601
policy and response in sub-Saharan Africa, 1169–1182
(see also HIV infection)

alcohol, among older adults, 43–48
its abuse and loneliness, 405–414

anorexia nervosa, 867–884

anxiety, response of dental students, 229–232

Australia, child development, 829–835
correlates of hysterectomy, 925–942
mammography screening, 993–1004

Bamako initiative, 667–673

Bangladesh, mortality among older widows, 89–96

bereavement, Palestinian martyrs, 709–717

beri-beri, in the Gambia, 1295–1297

Brazil, maternal education and child health, 899–905

breast feeding, and social support, 919–927
in Pakistan, 1277–1290

Canada, health care utilization in Labrador, 151–160

cancer, and coping, 11–15
spatial analysis of childhood cancer, 769–777
and coping behaviour, 1203–1216

cardiac disease, and health beliefs, 675–685

child health, physical activity and psychological correlates, 325–331
and the effects of terrorism, 533–548
management and training of diarrhoea, 687–695
spatial analysis of cancers, 769–777
and socioeconomic disadvantage in Australia, 829–835
in Pakistani villages, 1385–1397

clinical trials, and cost effectiveness in diabetic research, 973–981
and no-fault compensation, 1399–1404

Colombia, sociomedical aspects of malarial control, 625–637

community care, the Minnesota heart health program, 639–648

community participation, and HIV/AIDS research in Uganda, 1089–1095

coping behaviour, and cancer, 11–15
and illness, 427–432
with cancer, 1203–1216

cost-effectiveness, and malaria control technologies in Nepal, 965–972
and clinical trials, 973–981
and hemodialysis, 983–991
breast cancer screening in Australia, 993–1004

decision making, in Tanzanian households, 817–824
about treatment, 1217–1225

demography, impact of AIDS in developing countries, 271–280

Denmark, HIV and male sexual practices, 1119–1127

dentistry, and the institutionalized elderly, 415–418

diabetes, and ageing among black Americans, 1317–1323

diarrhoea, management and treatment among children, 687–695

doctor–patient relationship, 515–522, 1097–1103, 1345–1350
usages of a Japanese medical term, 237–247
communication between doctors and patients, 1155–1164
decision and treatment, 1217–1225

drugs, abuse of high dose estrogen/progestin combination drugs, 281–289
utilization in Sri Lanka, 307–315

elderly, and dental care, 415–418
work–health relationships, 747–755
access to ambulatory care, 1237–1247
in cultural context, 1303–1343
and pet therapy, 1325–1334

eosinophilic meningitis, Angiostrongylus cantonensis in the Pacific basin, 191–212

epidemiology, yellow fever in U.S.A., 855–865

epilepsy, and the quality of life, 657–666

ethnicity, morbidity and health care utilization, 151–160

family support, and AIDS, 571–580
and health, 779–788

female labour, in agriculture, 789–807

fertility rates, cultural change and the reproductive cycle, 485–489

forensic anthropology, 107–128

Gambia, and prostitution, 75–88
and beri-beri, 1295–1297

gender, social class and illness among the young, 649–656

general practice, workload in the Netherlands, 263–270
family illness behaviour, 491–497
time, prices and demand, 725–733
status, incongruence and cholesterol, 757–762
and physician–patient relationships, 1154–1163
(see also physicians)

Ghana, and adolescent smoking, 1291–1293

Great Britain, health targets, 169–182
quality of medical care, 549–558
HIV in the U.K., 697–707

Greece, maternal mobility and infant mortality, 317–323

Guatemala, the sociocultural effects of terrorism, 533–548

handicap, disability and depression, 395–403
professional attitudes to visible physical disability, 809–815
health behaviour, and general practice, 491–497
and gender, 907–917
in Balochistan, 1385–1397
health beliefs, among black and white women, 191–198
and non-compliance in rural India, 291–306
and prevention of coronary heart disease, 675–685
in Tanzania, 817–824
among Brazilian mothers, 899–905
in rural India, 1069–1076
and primary health care, 1077–1087
in rural Nepal, 1105–1117
infant feeding in Pakistan, 1277–1290
health care, utilization in two Labrador communities, 151–160
pre-natal care across the Mexico/U.S.A. border, 419–425
medical utilization among Hindu renunciates, 499–505
do resources make for better health?, 837–842
health care costs, forecasting, 1057–1068
health care services, planning in sub-Saharan Africa, 1–9
cost and energy variations by distance, 17–24
census data and research, 33–41
problems of allocation, 467–474
and public expenditure in Africa, 615–624
demand for GP service, 725–733
and medicine, 1023–1034
in South Africa, 1183–1190
for the non-institutionalised elderly, 1237–1247
health economics, 947–1068
health education, impact of a health promotion program, 639–648
HIV in the U.K., 697–707
health for all, in Britain, 169–182
health inequalities, in the Netherlands, 213–226
health insurance, and consumer knowledge, 1023–1034
and capitation formula, 1035–1048
and collectivization, 1049–1055
and ambulatory care among the elderly, 1237–1247
health maintenance organization (HMO), 33–41
health status, and unemployment, 341–363
and militarism, 719–724
perceptions among outpatients, 1147–1154
HIV infection, in the U.K., 697–707
and community based research, 1089–1095
and male sexual behaviour in Denmark, 1119–1127
(see also AIDS)
Honduras, management and treatment of diarrhoea, 687–695
hospice movement, 1363–1375
and community nurses, 375–382
hospital services, and quality competition, 1011–1021
hysterectomy, in Australia, 929–942

India, health beliefs and non-compliance, 291–306
health beliefs, 349–351
infant mortality, health care resources, 837–842
and maternal education in Brazil, 899–905

inflammatory bowel disease, and employer attitudes, 459–460
Israel, health policy making by physicians, 129–139
health among the over fifties, 747–755

Japan, doctor–patient communication, 237–247
justice, in health care, 467–474

Kenya, roads and hospital use, 1135–1146

lifestyle, and coronary heart disease, 675–685
occupational stress and serum cholesterol, 757–762

malaria, social aspects of control, 625–637
control programmes in Nepal, 965–972
marital status, and health, 523–532
gender and health behaviour, 907–917
medical education, status of doctor–patient communication in British medical schools, 515–522
medical ethics, the problem of resuscitation codes, 885–898
and compensation for harm, 1399–1404
medical geography, 735–746
significance of distance in rural Zimbabwe, 17–24
physicians' preferred location, 57–62
spatial analysis of childhood cancers, 769–777
roads and hospital utilization in Kenya, 1135–1146
(see also individual entries)
mental health, diagnosis and racial bias, 141–149
disability and depression, 395–403
social networks among mental patients, 433–445
migrants, and child health, 161–167
militarism, and world health, 719–724
mobile surgeries, in rural areas, 97–102
morbidity, perceptions in Mali, 1227–1235
and unemployment, 947–957
mortality, among older widows in rural Bangladesh, 89–96

Nepal, aesthetic and health beliefs among the Yomo Sherpa, 1105–1117
Netherlands, health inequalities, 213–226
general practice workload, 263–270
Norway, distribution of doctors, 57–62
nursing, and status inequality, 365–374
terminal care and community nurses, 375–382
and job satisfaction in the U.S.A., 1413–1424
nutrition, and female agricultural labour, 789–807

obstetrics, early post-partum discharge, 227–235
pre-natal care across the Mexico/U.S.A. border, 419–425
occupational health, employer attitudes to inflammatory bowl disease, 459–460
junior doctors and the quality of care, 549–558
and participatory research, 603–613
job satisfaction and health among the over fifties, 747–755
stress among blue collar women, 1377–1383
nursing satisfaction and turnover, 1413–1434
outpatients, and perceived health status, 1147–1154

pain, treatment of chronic pain, 383–393
Pakistan, infant feeding beliefs, 1277–1290
Palestine, and martyr widowhood, 709–717
parasitology, eosinphilic meningitis, 109–212
patient compliance, 507–513
among Indian tuberculosis patients, 291–306
pharmaceuticals, regulation in the developing countries, 959–964
physicians, and policy making in the U.S.A. and Israel, 129–139
(see also general practice)
pregnancy, its diagnosis by high dose combination drugs, 281–289
and dreaming, 1405–1411
preventive medicine, and physical activity, 25–32
health behaviour among black and white women, 191–198
mammography in Australia, 933–1004
psychological consequences of mammography, 1129–1134
primary health care, acceptability of comparative systems of payment, 667–673
professional judgement, 809–815
prostitution, in Gambia, 75–88
public expenditure, and health care in Africa, 615–624

quality of life, adjustment for later years, 559–569
and epilepsy, 657–666

race, and forensic anthropology, 107–111, 125–128
identification in South Asia, 119–123
bias and psychiatric diagnosis, 141–149
recombinant human erythropoietin (r-HuEPO), and medical care costs, 983–991
rehabilitation, of stroke patients, 1249–1261
risk, perception of AIDS, 591–601

sense of coherence (SOC) scale, and alcoholism, 43–48
sexual behaviour, and AIDS in developing countries, 271–280
conceptual and methodological in its research, 475–483
and transmitted diseases in America, 843–853
among Danish men, 1119–1127
sleep, insomnia among the 50–65's, 49–55
social class, gender and illness among the young, 649–656
social networks, alcoholism and loneliness, 405–414
and psychiatric patients, 433–445
and health, 779–788
and elderly institutionalized, 1335–1343
social support, and breast feeding, 919–927
rehabilitation after strokes, 1249–1261
social workers, inequalities in collaboration with nurses, 365–374
South Africa, planning health care, 1183–1190
stress, surviving disaster, 11–15
and major life events, 763–768
among women blue collar workers, 1377–1383
sub-Saharan Africa, financing health services, 1–9
women and AIDS, 63–73
AIDS, research in, 475–483

public expenditure and health care, 615–624
is paying for health care socially acceptable?, 667–673
response to AIDS, 1169–1182

Sudan, elasticity of water demand, 183–189

suicide, theories of, 333–334
and unemployment in Italy, 1191–1201

Tanzania, prevention among the Gogo, 817–824

terminal care, 1271–1276
and community nurses, 375–382
among Hindu renunciates, 499–505

traditional medicine, and western medicine in Sri Lanka, 307–315
psychic surgery in the Philippines, 461–464
in rural India, 1069–1076
and morbidity in Mali, 1227–1235

Uganda, community participation in AIDS research, 1089–1095

unemployment, and health, 341–363
and mortality, 947–957
and suicide in Italy, 1191–1201

United States of America, health policy making by physicians, 129–139
drinking, sex and transmitted disease, 843–853
yellow fever (1693–1905), 855–865
ageing and diabetes among the blacks, 1317–1323

water supplies, elasticity in Sudan, 183–189

women's health, AIDS in sub-Saharan Africa, 63–73
variations by ethnicity, 191–198
early post-partum discharge, 227–235
AIDS in developing countries, 249–262
female mobility and infant mortality in Greece, 317–323
minorities, sexual choices and AIDS, 447–457
alcohol, sex and behaviour in America, 843–853
breast cancer screening in Australia, 993–1004
occupational stress among blue collar workers, 1377–1383

yellow fever, in the U.S.A., 855–865

Zimbabwe, problems of distance, 17–24
